

The aim of the program is to provide financial support for open-access publication of research papers by scholars affiliated at the Jagiellonian University in the most prestigious scientific journals within the scope of the BioS PRA

### **Funding of open-access (OA) scientific articles – terms and conditions:**

1. Funding to cover the costs of OA publication of research articles is granted to outstanding contributions published in relation to the BioS PRA strategic topics (structural biology; 'omics' research and bioinformatics; cellular, system and translational biology; evolutionary biology and biodiversity research; biology of conflict and cooperation).
2. Additional funding applies to articles published in journals with 200, 140, or 100 ranking points in the journal list published by the Polish Ministry of Science and Higher Education (as per the current version).
3. The funding is granted subject to the following conditions:
  - a. the corresponding author is an employee or a student of the Jagiellonian University (the co-corresponding author is treated as equivalent)
  - b. an additional condition for publications with 140 points is that also the first author is an employee or a student of the Jagiellonian University (co-first author is treated as equivalent)
  - c. an additional condition for publications with 100 points is that the authors represent at least three units involved in the BioS PRA (Faculty of Biochemistry, Biophysics and Biotechnology, Faculty of Biology, Małopolska Centre of Biotechnology, JCET, and Solaris Centre)
  - d. JU is included as the first affiliation of the above-listed authors
  - e. the acknowledgements mention the participation of the JU/ research team in the JU Excellence Initiative (The open-access publication of this article was funded by the BioS Priority Research Area under the program “Excellence Initiative – Research University” at the Jagiellonian University in Krakow)
  - f. unsuccessful application to the program “Wirtualna Biblioteka Nauki” for financial support of OA – if there was an option to submit an application (<http://wbn.icm.edu.pl/licencje/>).
4. Special or ambiguous cases will be subject to individual assessment by the Committee.
5. To apply for funding, authors must complete the “I.3.a Open Science BioS Form”. Enclosed with the application must be the copy of the article.
6. The call for application is continuous until the budget for a given calendar year is exhausted.
7. The funding decision will be made within three working days to ensure proper processing of the payment.
8. The authors may not apply for similar support from other PRAs during the whole evaluation period at BioS.
